First Row ⟶ 9 + 9

Second Row ⟶ | 1 | 2 | 3 | + |
| --- | --- | --- | --- |
Third Row ⟶ | 4 | 5 | 6 | - |
Fourth Row ⟶ | 7 | 8 | 9 | X |
Fifth Row ⟶ | C | 0 | = | / |

Create above calculator with HTML, CSS and JavaScript.
When I click on any value from 0 to 9 it should display in output row.
When Click on '+' it should add values and show in output row (First Row).
When Click on '-' it should subtract values and show in output row (First Row)
When Click on '*' it should multiply values and show in output row (First Row)
When Click on '/' it should divide values and show in output row (First Row)
When Click on 'C' it should clear the output row (First Row)
User should also able to input only digit from keyboard and when I try to put another value than digit or arithmetic operators then I should get alert showing that "Invalid Input".
